Leading the Way in Comprehensive Safety Training Across West Africa

As the leading HSE, sustainability, project management, dangerous goods and allied courses training provider in West Africa, we are committed to safe person, safe workplace and safe society through internationally recognised and accepted courses from awarding bodies across the world. We also develop bespoke, client specific training solutions to meet the safety need of our clients.

The focus of all our training is to build human capacity development and competence that meet industry and global needs, by ensuring that the personnel are given the right and current knowledge and skills.

With more than 500 courses at various levels, we bring to you a learning experience that is effective, fun and impactful using technology and modern facilities. Our courses are delivered in various methods in all our

training 7 locations in Nigeria (Lagos, Abuja, Port Harcourt, Ibadan, Warri, Ilorin, Kano) and Ghana: In-person and online (virtual-trainer-led, distance learning).

Welcome to a world of training opportunity, delivered by the industry bests."

Dapo Omolade

Course Description

HSE Level 1	
Course Name & Description	<p>Award in Health and Safety at work</p> <p>This qualification is designed to provide candidates with understanding the skills, principles and practices of work-place safety. This level provides a starting point from which more detailed training in level 2 can follow. This level is suitable for beginners and anyone in the workplace environment.</p>
Course Group	AOSH
Duration	5 hours (9am – 1pm).
Course Assessment	<p>Assessment is done at the end of the course; delegates will be able to demonstrate understanding of the course syllabus by taking an end-of-course exam. On successful completion of the exam, delegates will receive certificate.</p> <p>Online training is flexible, efficient and cost-effective, so candidates can progress through the modules at their own pace, in their own time, making it easy to fit the training around their work and personal life.</p>
Course Syllabus	<ul style="list-style-type: none">• Show an awareness of the principles of health and safety in the workplace.• Show an understanding of the hazards and risks in the workplace.• Show an understanding of the welfare requirements in the workplace to promote the health, safety and wellbeing of staff and others.• Show an understanding of the workplace safety procedures.• State the benefits of good health and safety in the workplace• List the consequences of poor health and safety in the workplace• State the legislation that enforces health and safety in the UK• List the responsibilities of employers managing health, safety and welfare of employees• List the duties of employees in relation to health and safety in the workplace• Identify the penalties for breaching health and safety legislation• State the importance of preventing accidents
Online training is flexible, efficient and cost-effective, so candidates can progress through the modules at their own pace, in their own time, making it easy to fit the training around their work and personal life.	

HSE Level 2	
Course Name & Description	Risk Assessment Practical Application This qualification is designed to help improve the workplace culture by enabling learners to understand the basic principles of risk assessment. Course is suitable for anyone in a work environment as it raises learners’ awareness of the concept of risk assessment.
Course group	AOSH
Duration	1 day (9am – 5pm).
Course Assessment	Assessment is done at the end of the course; delegates will be able to demonstrate understanding of the course syllabus by taking an end-of-course exam. On successful completion of the exam, delegates will receive certificate.
Course Syllabus	<ul style="list-style-type: none">• Understand roles and responsibilities for health, safety and welfare in the workplace• Understand how risk assessments contribute to health and safety• Understand how to identify and control the risks from common workplace hazards• Know the procedures for responding to accidents and incidents in the workplace• Identify the legal duties of the employer• Identify the legal duties of the employee• State the consequences for failing to comply with Health and Safety Legislation• List the methods the employer can communicate health and safety with employees
Online training is flexible, efficient and cost-effective, so candidates can progress through the modules at their own pace, in their own time, making it easy to fit the training around their work and personal life.	

HSE Level 3	
Course Name & Description	<p>Advanced HSE: Award in Environmental Awareness</p> <p>This qualification is created to provide an awareness of key environmental concepts and an introduction to environmental management systems. Course is suitable to everyone whose activities could have a significant impact on the environment, or those introduced to environmental issues for the first time.</p>
Course Group	AOSH
Duration	3 days (9am – 5pm).
Course Assessment	Assessment is done at the end of the course; delegates will be able to demonstrate understanding of the course syllabus by taking an end-of-course exam. On successful completion of the exam, delegates will receive certificate.
Course Syllabus	<ul style="list-style-type: none">• Understand the requirements for health, safety and welfare in the workplace• Understand the benefits of using a safety management system• Understand the principles of risk assessment• Understand the risk and controls of common workplace hazards• Legal framework and laws relating to health and safety at work• Welfare provisions that should be made by the employer• Sources and nature of information that demonstrate compliance and best practice with health and safety requirement.
Online training is flexible, efficient and cost-effective, so candidates can progress through the modules at their own pace, in their own time, making it easy to fit the training around their work and personal life.	

Level 1 Award in Fire Safety Awareness	
Course Name & Description	Level 1 Award in Fire Safety Awareness This qualification provides employees with essential knowledge about fire safety in the workplace including how to prevent fires from starting and what action to take when the fire alarm sounds.
Course group	AOSH
Duration	1 day (9am – 5pm)
Course Assessment	This qualification is assessed by Multi Choice Questions (MCQ). To Awarded this qualification the Learner must achieve a percentage pass in the MCQ paper.
Course Syllabus	<div>1) Course Syllabus</div> <div>1) Causes of workplace fires</div> <div>2) Fire safety precautions</div> <div>3) Reducing the risks</div> <div>4) Firefighting procedures</div> <div>5) Fire extinguisher recognition and use theory</div> <div>6) Practical use of fire extinguishers – dependant on a suitable area</div> <div>7) Fire action planning</div>
Online training is flexible, efficient and cost-effective, so candidates can progress through the modules at their own pace, in their own time, making it easy to fit the training around their work and personal life.	

Level 2 Award in Fire Safety Principles	
Course Name & Description	<p>Level 2 Award in Fire Safety Principles</p> <p>This qualification provides employees with the knowledge to help them carry out designated duties relating to fire safety and emergency procedures in the work-place. Employees who hope to develop their basic fire safety awareness in order to assist their employer by undertaking specific fire safety roles in the workplace, e.g. as fire wardens / fire marshals.</p>
Course Group	AOSH
Duration	1 day (9am – 5pm).
Course Assessment	This qualification is assessed by Multi Choice Questions (MCQ). To Awarded this qualification the Learner must achieve a percentage pass in the MCQ paper.
Course Syllabus	<div><div>1)</div><div>Fire law</div></div> <div><div>2)</div><div>Causes of workplace fires</div></div> <div><div>3)</div><div>Fire safety precautions</div></div> <div><div>4)</div><div>Emergency plan requirements</div></div> <div><div>5)</div><div>Assembly point control</div></div> <div><div>6)</div><div>Reducing the risks</div></div> <div><div>7)</div><div>Carrying out and monitoring a fire drill</div></div> <div><div>8)</div><div>Firefighting procedures</div></div> <div><div>9)</div><div>Fire extinguisher recognition and use theory</div></div> <div><div>10)</div><div>Practical use of fire extinguishers – dependant on a suitable area</div></div> <div><div>11)</div><div>Fire action planning</div></div> <div><div>12)</div><div>The basics of fire risk assessment</div></div>
Online training is flexible, efficient and cost-effective, so candidates can progress through the modules at their own pace, in their own time, making it easy to fit the training around their work and personal life.	

Food Safety – Level 2	
Course Name & Description	<p>Food Safety – Level 2</p> <p>This qualification is designed for learners who wish to develop skills, knowledge and understanding of the importance of good personal and workplace hygiene and how to keep food safe from contamination. This qualification allows learners to take responsibility for food safety in a catering environment.</p> <p>Learners will build an understanding on the importance of safe food handling practices and keeping foods safe. Topics covered include: food safety laws, types of contamination and the associated risks, bacteriology, personal hygiene, safe food handling practices and more.</p>
Course Group	AOSH
Duration	1 day (9am – 5pm).
Course Assessment	<p>This qualification is assessed by Multi Choice Questions (MCQ). To Awarded this qualification the Learner must achieve a percentage pass in the MCQ & assessment.</p>
Course Syllabus	<ul style="list-style-type: none">1) Legislation2) Food safety hazards3) Temperature control4) Refrigeration, chilling and cold holding5) Cooking, hot holding and reheating6) Food handling7) Principles of safe food storage8) Cleaning9) Food premises and equipment10) Qualification information
<p>Online training is flexible, efficient and cost-effective, so candidates can progress through the modules at their own pace, in their own time, making it easy to fit the training around their work and personal life.</p>	

Food Safety – Level 3	
Course Name & Description	<p>Food Safety – Level 3</p> <p>This course is designed for managers and supervisors to help them understand their essential day-to-day responsibilities. When a candidate passes this course, they will receive a certificate which demonstrates that they can supervise staffs to handle food safely and hygienically.</p> <p>This is a comprehensive course which starts with basic definitions of key words, then follows a logical path through other topics including the types of food hazards, personal hygiene, pest control, legislation, enforcement, and the design and cleaning of food premises and equipment. It also discusses how to implement a successful food safety management system.</p> <p>There’s a wide range of topics because maintaining food safety and food hygiene is vital if you’re to reduce the risk of food poisoning. The correct Food Safety Management System, professionally run, protects your customers, your staff, and the reputation of your company.</p>
Course Group	AOSH
Duration	3 days (9am – 5pm).
Course Assessment	This qualification is assessed by Multi Choice Questions (MCQ). To Awarded this qualification the Learner must achieve a percentage pass in the MCQ & assessment.
Course Syllabus	<ul style="list-style-type: none">1) Legislation2) personal hygiene3) cleaning and disinfection4) contamination hazards5) pest control6) waste disposal7) temperature control8) microbiology (multiplication and survival hazards)9) food-borne illness
Online training is flexible, efficient and cost-effective, so candidates can progress through the modules at their own pace, in their own time, making it easy to fit the training around their work and personal life.	

Level 2 Award in Risk Assessment	
Course Name & Description	Level 2 Award in Risk Assessment The Level 2 Award in Risk Assessment aims to provide supervisors and employees with an opportunity to demonstrate their knowledge and understanding of the risk assessment process and the skills required to undertake a suitable and sufficient risk assessment.
Course Group	AOSH
Duration	3 day (9am – 5pm).
Course Assessment	This qualification is assessed by Multi Choice Questions (MCQ). To Awarded this qualification the Learner must achieve a percentage pass in the MCQ & assessment.
Course Syllabus	1) why risk assessments are necessary 2) the legal requirements relating to risk assessments 3) simple processes for carrying out a risk assessment.
Online training is flexible, efficient and cost-effective, so candidates can progress through the modules at their own pace, in their own time, making it easy to fit the training around their work and personal life.	

COURSE CALENDAR

Level 3 Award in Risk Assessment	
Course Name & Description	Level 3 Award in Risk Assessment The Level 3 Award in Risk Assessment aims to provide supervisors and employees with an opportunity to demonstrate their knowledge and understanding of the risk assessment process and the skills required to undertake a suitable and sufficient risk assessment.
Course Group	AOSH
Duration	1 day (9am – 5pm).
Course Assessment	This qualification is assessed by Multi Choice Questions (MCQ). To Awarded this qualification the Learner must achieve a percentage pass in the MCQ & assessment.
Course Syllabus	<div>1) Importance of Health and Safety In The Workplace</div> <div>2) Principles of Risk Assessment</div> <div>3) Relationship Between Hazard and Applying</div> <div>4) Hierarchy of Control to Control Risk.</div>
Online training is flexible, efficient and cost-effective, so candidates can progress through the modules at their own pace, in their own time, making it easy to fit the training around their work and personal life.	

Level 2 Award in Principles of HACCP	
Course Name & Description	<p>Level 2 Award in Principles of HACCP</p> <p>This qualification is designed for those working or preparing to work in food businesses where a food safety management system based on Codex Hazard Analysis and Critical Control Points (HACCP) principles is implemented. It provides essential knowledge on the development and application of HACCP-based food safety management systems.</p>
Course Group	AOSH
Duration	1 day (9am – 5pm).
Course Assessment	This qualification is assessed by Multi Choice Questions (MCQ). To Awarded this qualification the Learner must achieve a percentage pass in the MCQ & assessment.
Course Syllabus	<ul style="list-style-type: none">1) Latest legal basis for the use of HACCP systems in all food premises.2) Choosing prerequisites to ensure your HACCP system works correctly.3) Understanding the 7 principles of HACCP and how to design a HACCP system.4) Selecting Control Points and Critical Control Points.5) How to monitor suppliers, delivery, storage and all food preparation tasks.6) All the forms and guides necessary to design and manage a HACCP system.
Online training is flexible, efficient and cost-effective, so candidates can progress through the modules at their own pace, in their own time, making it easy to fit the training around their work and personal life.	

CPR AED	
Course Name & Description	Cardiopulmonary Resuscitation Automated External Defibrillator CPR AED is a practical-oriented course that enables to treat victims in sudden cardiac arrest and choking emergency. Moreover, this is a video based instructor-led course which includes realistic scenarios, simulations, and animations to make the participants proficient in performing CPR (Cardio Pulmonary Resuscitation), using an AED (Automated External Defibrillator) and keeping the victim comfortable until professional medical services arrives.
Course group	AOSH
Duration	1 day (9am – 5pm).
Course Assessment	Assessment is done at the end of the course; delegates will be able to demonstrate understanding of the course syllabus by carrying out a practical section and taking an end-of-course exam. On successful completion of the exam, delegates will receive certificate.
Course Syllabus	<div>1) To identify Medical Emergencies (Scene Safety / Activating Medical Emergency system)</div> <div>2) To Manage Opioid Poison Victim.</div> <div>3) Significance & Use of an AED.</div> <div>4) Management of Choking Victim (Adult / Child / Infant)</div> <div>5) Administration of CPR with AHA guidelines (Adult / Child / Infant)</div>
Online training is flexible, efficient and cost-effective, so candidates can progress through the modules at their own pace, in their own time, making it easy to fit the training around their work and personal life.	

Level 2 Award in Emergency First Aid at Work	
Course Name & Description	Level 2 Award in Emergency First Aid at Work Designed for learners wishing to develop the skills, knowledge and understanding to enable them to provide appropriate care and manage life threatening conditions, minor illness and injuries. It is also ideal for people who have a specific responsibility to provide basic first aid in voluntary and community activities.
Course Group	AOSH
Duration	1 day (9am – 5pm).
Course Assessment	This qualification is assessed by a practical demonstration and written/oral questioning.
Course Syllabus	<div>1) Cross infection;</div> <div>2) Recording incidents & actions;</div> <div>3) Use of available equipment</div> <div>4) Assessing an incident;</div> <div>5) Unconscious casualties (including seizure);</div> <div>6) Cardiopulmonary resuscitation;</div> <div>7) Safe use of an automated external defibrillator</div> <div>8) Choking;</div> <div>9) Wounds and bleeding;</div> <div>10) Shock;</div> <div>11) Minor injuries (including small cuts, grazes and bruises, minor burns and scalds, Small splinters)</div>
Online training is flexible, efficient and cost-effective, so candidates can progress through the modules at their own pace, in their own time, making it easy to fit the training around their work and personal life.	

Level 3 First Aid at Work	
Course Name & Description	<p>Level 3 First Aid at Work</p> <p>This qualification has been developed for those already working, or preparing to work, in the industry and who have been identified in the company’s first aid risk assessment as being required to provide first aid in the workplace.</p>
Course Group	AOSH
Duration	3 days (9am – 5pm).
Course Assessment	This qualification is assessed by a practical demonstration and written/oral questioning
Course Syllabus	<div><div>1)</div><div>Assessing an incident</div></div> <div><div>2)</div><div>Managing an unresponsive casualty</div></div> <div><div>3)</div><div>CPR</div></div> <div><div>4)</div><div>Heart attacks</div></div> <div><div>5)</div><div>Choking</div></div> <div><div>6)</div><div>Burns</div></div> <div><div>7)</div><div>Scalds</div></div> <div><div>8)</div><div>How to manage casualty who is bleeding (severe or minor) or in shock</div></div> <div><div>9)</div><div>Head and spinal injuries</div></div> <div><div>10)</div><div>Fractures</div></div> <div><div>11)</div><div>Anaphylaxis and more</div></div>
Online training is flexible, efficient and cost-effective, so candidates can progress through the modules at their own pace, in their own time, making it easy to fit the training around their work and personal life.	

Certified Master Trainer	
Course Name & Description	<p>Certified Master Trainer</p> <p>Gain a practical, how-to overview of the entire training function. Through modeling of the best practices and latest techniques in training delivery, discover the 4Ps of training:</p> <ul style="list-style-type: none">• Purpose & Assessment• Planning & Preparation• Presentation & Facilitation• Performance & Evaluation <p>New trainers will gain a strong foundation in critical training skills and experienced trainers will be introduced to new approaches for delivering effective training.</p>
Course Group	AOSH
Duration	5 days (9am – 5pm).
Course Assessment	Master Trainer program is assessed by MultiChoice Questions (MCQ) and Practical demonstration including delivering a minimum 20-minute training session. To Award this qualification the Learner must achieve a minimum percentage pass in the MCQ and practical demonstration.
Course Syllabus	<ol style="list-style-type: none">1) Describe the training cycle.2) Identify and determine the need for training—what, who, and how.3) Write effective learning objectives.4) Design participant-oriented learning materials and exercises.5) Apply adult learning concepts, develop supportive climates, and customize off-the-shelf materials.6) Use training activities and alternatives to lecture, Use a range of strategies for different learning needs, and create effective questioning techniques.7) Prepare properly for a training session, and prepare participants to foster learning.8) Manage and encourage participants of all backgrounds and learning styles9) Address challenging participants and behaviours.10) Present and facilitate a training program, including the use of audiovisuals and handouts.11) Evaluate program impact at different levels using a variety of methods.12) Identify the five levels of evaluation.
Online training is flexible, efficient and cost-effective, so candidates can progress through the modules at their own pace, in their own time, making it easy to fit the training around their work and personal life.	

Level 1 Introduction to Industrial Hygiene	
Course Name & Description	<p>Level 1 Introduction to Industrial Hygiene</p> <p>Industrial hygiene has been defined as... “The science and art devoted to the anticipation, recognition, evaluation and control of those environmental factors or stresses arising in or from the workplace, which may cause sickness, impaired health and well-being or significant discomfort among workers or the citizens of the community.” Quite a mouthful. So what does that all mean? And what does an Industrial Hygienist actually do?</p> <p>“Introduction to Industrial Hygiene”, discusses how Industrial Hygienist’s look at the work environment, identify problems that could affect workers’ safety and health, and find ways to eliminate or alleviate those problems.</p>
Course Group	AOSH
Duration	1 day (9am – 5pm).
Course Assessment	This qualification is assessed by Multi Choice Questions (MCQ). To Awarded this qualification the Learner must achieve a percentage pass in the MCQ paper
Course Syllabus	<div>1) Worksite Analysis</div> <div>2) Air Contaminants</div> <div>3) Chemical and Biological Hazards</div> <div>4) Physical Hazards... Noise and Vibrations</div> <div>5) Physical Hazards... Light, Temperature, Heat and Radiation</div> <div>6) Ergonomic Hazards</div>
Online training is flexible, efficient and cost-effective, so candidates can progress through the modules at their own pace, in their own time, making it easy to fit the training around their work and personal life.	

Level 2 Principles of Industrial Hygiene	
Course Name & Description	<p>Level 2 Principles of Industrial Hygiene</p> <p>Principles of Industrial Hygiene provides an introduction to the field of industrial hygiene and to occupational health in general. The instructor focuses on introducing concepts, terminology, and methodology in the practice of industrial hygiene and identifies resource materials.</p> <p>The class would benefit those wishing to pursue a Master's degree in industrial hygiene; those interested in the industrial hygiene, environmental health or safety professional careers, or for students in allied health fields needing a basic understanding of industrial hygiene.</p>
Course Group	AOSH
Duration	1 day (9am – 5pm).
Course Assessment	This qualification is assessed by Multi Choice Questions (MCQ). To Awarded this qualification the Learner must achieve a percentage pass in the MCQ paper.
Course Syllabus	<ol style="list-style-type: none">1) Describe the legal, professional, and ethical framework for the practice of industrial hygiene.2) Define basic terms and technical concepts integral to the practice of industrial hygiene.3) Explain the differences between chemical (gases/vapors, dusts/mists/fumes), physical, biomechanical and biological agents in the workplace.4) Calculate time-weighted averages and capture velocity and flowrates.5) Convert between various units of exposure (for example, mg/m3 to ppm).6) Calculate and interpret noise exposures and doses.7) Identify the basic concepts of workplace exposure assessment.8) Describe the hierarchy of controls and how it applies to hazard control.9) Integrate various concepts into a broader occupational/ environmental health practice.10) Provide a basis for advanced course work in occupational safety and health.11) Develop a skill to safely respond, contain and dispose of a chemical or biological spill or release into an indoor or outdoor environment.
Online training is flexible, efficient and cost-effective, so candidates can progress through the modules at their own pace, in their own time, making it easy to fit the training around their work and personal life.	

Level 2 Award in Environment	
Course Name & Description	<p>Level 2 Award in Environment</p> <p>This qualification has been created to provide an awareness of key environmental concepts and an introduction to environmental management systems.</p> <p>This qualification is for all members of staff whose activities could have a significant impact on the environment or supervisors or managers who are being introduced to environmental issues for the first time.</p>
Course Group	AOSH
Duration	1 days (9am – 5pm).
Course Assessment	This qualification is assessed by Multi Choice Questions (MCQ). To Awarded this qualification the Learner must achieve a percentage pass in the MCQ paper.

Duration	2 – 3 HOURS
Course Assessment	Learners are assessed at the end of the course by multiple-choice questions and Learners will receive a Highfield e-learning completion certificate, which is downloadable upon successfully finishing the course.
Course Description	Highfield’s 'An Awareness of Warehousing and Storage' e-learning course offers a flexible delivery option for apprentices undertaking the level 2 certificate or intermediate apprenticeship in warehousing and storage. This online course covers the underpinning knowledge for the two mandatory units and one optional unit of the qualification. The course is also a useful resource for learners wishing to further their knowledge of how to work safely and effectively within a warehouse or storage setting.
Course Syllabus	Working safely, Health and Safety at Work etc. Act 1974 and COSHH, first aid, Workplace safety monitoring, Manual Handling, Working relationships, Job descriptions Organizational policies and procedures, Misunderstandings and difficulties, Food safety enforcement, Health and safety and security, Environmental factors, Legal requirements, Operating requirements, Personal protective equipment, Personal health and hygiene standards, Replenishment, and Waste disposal.

INTRODUCTION TO ENVIRONMENTAL AWARENESS	
Course Name & Description	INTRODUCTION TO ENVIRONMENTAL AWARENESS
Course Group	HIGHFIELD COURSES
Duration	1 – 2 HOURS
Course Assessment	Learners are assessed at the end of the course by multiple-choice questions and Learners will receive a Highfield e-learning completion certificate, which is downloadable upon successfully finishing the course
Course Description	This course is ideal for anyone working within the business who wishes or is required to improve their carbon footprint and their effect on the environment.
Course Syllabus	Our Introduction to Environmental Awareness course covers the following key areas to ensure an increased understanding of office pollution; Identify the source of pollution, Know the impact of pollution, reduce your carbon footprint, and understand legal obligations.

FOOD SAFETY LEVEL 1	
Course Name & Description	FOOD SAFETY LEVEL 1
Course Group	HIGHFIELD COURSES
Duration	2-3 HOURS
Course Assessment	The course is assessed by multiple-choice questions at the end of the course. Learners must score 100% to pass. If the learner does not achieve 100% the first time, they will be taken back to review the module with which they have struggled. They can then retry the multiple-choice questions as many times as necessary to pass the course.
Course Description	<p>Food businesses must, by law, ensure that all staff have received the appropriate level of safety and hygiene training commensurate with their role and risk. It is a useful induction program for those undertaking work experience in a food business and for anyone with a keen interest in learning more about the basic principles of food safety and hygiene.</p> <p>This online course is suitable for those working in a catering environment who are not directly involved in the preparation or handling of high-risk foods but work in an environment where food is handled elsewhere or only deals with low-risk foods. It is also ideal for those working with pre-packaged or wrapped food.</p>
Course Syllabus	Course content includes; Introduction to food safety, Microbiological hazards, Food poisoning and its control, Contamination hazards and controls, Safe handling and the storage of food, Personal hygiene, Food pests and pest control, Cleaning and disinfection.

FOOD SAFETY LEVEL 2	
Course Name & Description	FOOD SAFETY LEVEL 2
Course Group	AOSH
Duration	2-3 HOURS
Course Assessment	The course is assessed by multiple-choice questions at the end of the course. Learners must score 100% to pass. If the learner does not achieve 100% the first time, they will be taken back to review the module with which they have struggled. They can then retry the multiple-choice questions as many times as necessary to pass the course.
Course Description	<p>Food businesses must, by law, ensure that all staff have received the appropriate level of safety and hygiene training commensurate with their role and risk. It is a useful induction program for those undertaking work experience in a food business and for anyone with a keen interest in learning more about the basic principles of food safety and hygiene.</p> <p>This online course is suitable for those working in a catering environment who are not directly involved in the preparation or handling of high-risk foods but work in an environment where food is handled elsewhere or only deals with low-risk foods. It is also ideal for those working with pre-packaged or wrapped food.</p>
Course Syllabus	Course content includes an introduction to food safety, Microbiological hazards, Food poisoning and its control, Contamination hazards, and controls, Safe handling and the storage of food, Personal hygiene, Food pests and pest control, Cleaning and disinfection.

FOOD SAFETY LEVEL 3	
Course Name & Description	FOOD SAFETY LEVEL 3
Course Group	AOSH
Duration	20 HOURS
Course Assessment	The course is assessed by multiple-choice questions at the end of the course.
Course Description	<p>The Highfield Level 3 Award in Food Safety for Catering (RQF) is the market-leading qualification for food safety in catering environments.</p> <p>Designed to assist learners who wish to progress to higher or supervisory levels within a food catering business, this may include restaurants, cafes, hotels, bars, fast-food outlets, takeaways, mobile food trucks, kitchens, hospitals, schools, and colleges. The qualification is ideal for ensuring compliance with the law and giving learners the opportunity for personal growth and development.</p>
Course Syllabus	Topics covered include Ensuring compliance with food safety legislation, The application and monitoring of good hygiene practices, How to implement food safety management procedures, The application and monitoring of good practices regarding contamination, microbiology, and temperature control.

HEALTH AND SAFETY LEVEL 1	
Course Name & Description	HEALTH AND SAFETY LEVEL 1
Course Group	HIGHFIELD COURSES
Duration	1 - 2 hours
Course Assessment	The course is assessed by multiple-choice questions at the end of the course.
Course Description	<p>This course is an ideal introduction to health and safety in the workplace. Ideal as part of an induction process or awareness training for those working in low risk jobs the course covers the 8 key modules of an RQF level 1 health and safety qualification.</p> <p>The course covers the key content and knowledge required to go on to achieve a recognized level 1 health and safety qualification.</p>
Course Syllabus	Topics covered include, Accidents including slips, trips, and falls Legal responsibilities Hazardous substances (COSHH), Workplace health, safety, and welfare, Work equipment, Fire, First aid, and Manual handling.

HEALTH AND SAFETY LEVEL 2	
Course Name & Description	HEALTH AND SAFETY LEVEL 2
Course Group	HIGHFIELD COURSES
Duration	2 – 4 HOURS
Course Assessment	The course is assessed by multiple-choice questions at the end of the course.
Course Description	The Highfield Level 2 Award in Health and Safety within the Workplace (RQF) is a market-leading exam used by some of the biggest businesses across the world to keep their staff compliant with health and safety. It has been designed to give learners knowledge of the basic health and safety practices essential in the workplace and prepare them for progress to higher-level training
Course Syllabus	an understanding of the responsibilities of employers and employees, the benefits of good health and safety, steps to a risk assessment and how they can reduce accidents, near misses, and ill-health, typical hazards and controls in a workplace, common causes of accidents, near misses and ill-health, emergency procedures, the importance of recording accidents, near misses and ill-health

HEALTH AND SAFETY LEVEL 3	
Course Name & Description	HEALTH AND SAFETY LEVEL 3
Course Group	HIGHFIELD COURSES
Duration	6 – 9 HOURS
Course Assessment	The course is assessed by multiple-choice questions at the end of the course.
Course Description	<p>The Highfield Level 3 Award in Health and Safety in the Workplace (RQF) has been developed to give learners a sound knowledge and understanding of health and safety.</p> <p>Aimed primarily at those already working as a supervisor, manager, or team leader, it can also be used to train those who are preparing to start work at this level.</p>
Course Syllabus	Topics include: the requirements of health, safety, and welfare, the benefits of a health and safety management system, the risks and control methods for common workplace hazards, and the principles of risk assessment and incident investigation.

FIRE SAFETY LEVEL 1	
Course Name & Description	FIRE SAFETY LEVEL 1
Course Group	HIGHFIELD COURSES
Duration	20 – 40 Minutes.
Course Assessment	The course is assessed by multiple-choice questions at the end of the course.
Course Description	<p>Highfield’s Fire Safety in the Workplace Short Course is designed to help you and your business understand the risks of fire and the steps that can be taken to mitigate the risk of fire. It will provide the knowledge required to prevent fire and protect people from harm.</p> <p>The course outlines from the very basics of how fire starts and spreads, through to risk assessments and managing risk, as well as outlining the legal obligations of different people in the workplace and their roles and responsibilities relating to fire safety.</p>
Course Syllabus	The fire triangle, causes of fire, Hazards associated with fire, How fire spreads, Fire protection, Fire classification, Fire extinguishers, The Regulatory Reform (Fire Safety) Order, Fire safety briefings, Employees’ responsibilities, Fire risk assessment, Actions in the event of fire.

FIRE SAFETY LEVEL 2	
Course Name & Description	FIRE SAFETY LEVEL 2
Course Group	HIGHFIELD COURSES
Duration	2 – 3 HOURS
Course Assessment	The course is assessed by multiple-choice questions at the end of the course.
Course Description	This course offers a comprehensive guide to best practices when it comes to fire safety. Ideal for managers, supervisors, team leaders, fire marshals, and staff working in any area where there is a potential risk of fire. The course is also ideal for employee inductions, as refresher training for existing staff, or for those looking to go on to achieve a recognized level 2 fire safety qualification.
Course Syllabus	Areas Covered include; Introduction to Fire Safety, The characteristics of fire, Fire safety legislation, Assessing and managing risk.

SECURITY CALENDAR

Earning an ASIS board certification is a visible acknowledgment that you possess a mastery of core security principles and skills essential to the best practice of security management. International Security Organization - ISO (ISO-SEC), is a school for security (private security industry and homeland security), law enforcement, intelligence, emergency services, and safety professionals.

SECURITY CALENDAR

Earning an ASIS board certification is a visible acknowledgment that you possess a mastery of core security principles and skills essential to the best practice of security management. International Security Organization - ISO (ISO-SEC), is a school for security (private security industry and homeland security), law enforcement, intelligence, emergency services, and safety professionals.
